

Hadley

Buffalo N.Y.

June 23 1876

Prof. Asa Gray

Dear Sir

I am hoping to see you at the approaching meeting of the Scientific Association in Buffalo. The ten years that have passed since you were here have wrought great changes in my home & household, & only my wife & daughter & myself ^{now} compose the family. We shall be much gratified to entertain yourself & Mrs. Gray at our house during the meeting of the Association. Possibly Mrs. Hadley of New Haven & her son

may be with us at that time, & would
very much enjoy meeting you here.
May I hope to hear that you are
coming & that you will come to us.

You will know where to find
us. Our number is 1355 Main
St. The street cars pass every
12 minutes, & the various lines
now make such connexions
that the RR Depots or almost
any part of the City can be
reached directly from our door.

Very truly yours
George Hadley
